

Why Dealers Should Offer PowerShades

Premium Motorized Shade Solution for Today's Smart Homes

PowerShades delivers high-quality motorized window coverings designed for modern homes, integrators, and design-focused spaces. With flexible power options, smart home integration, and beautiful fabrics, **PowerShades** is an easy add-on sale for every project.

Flexible Power Options (Perfect for Retrofits):

- Build in Rechargeable battery
- Hardwired low voltage and high voltage
- POE Power 5W draw any size shade
- No electrician required for most installs — ideal for existing homes and retrofit projects.

Design-Forward Fabric Options

- Wide selection of premium fabrics and colors
- Solutions for light filtering, privacy, and blackout
- Clean, modern hardware options to match any interior

Easy Upsell Opportunity

Shades are an easy upgrade conversation when selling:

- TVs and home theaters
- Smart homes
- Lighting control systems
- Outdoor living spaces
- This is an essential product, not a discretionary purchase. Window coverings are a fundamental need—whether manual or motorized.

Perfect for:

- Home theaters
- Living rooms with large windows
- Bedrooms (blackout solutions)
- Condos and luxury homes
- Retrofit smart homes

Key Reasons to Sell PowerShades:

- Add High-Margin Revenue to Every Project
- Motorized shades are one of the fastest-growing categories in smart homes
- Easily bundled with AV, lighting, and automation installs
- A Springs Window Fashions company
- Great selling tools, including hardware kits and fabric books
- Simple and fast quoting software
- Indoor and outdoor applications
- Built-in native shade automation system

Smart Home Integration

Seamlessly integrates with leading control platforms:

- Control4
- Crestron
- Savant
- RTI
- URC
- Bond Bridge Pro

Control shades from touch panels, remotes, apps, or voice control

Energy Efficiency + Comfort

Motorized shades help:

- Reduce heat gain in summer
- Improve insulation in winter
- Protect furniture and flooring from UV damage
- Adds privacy
