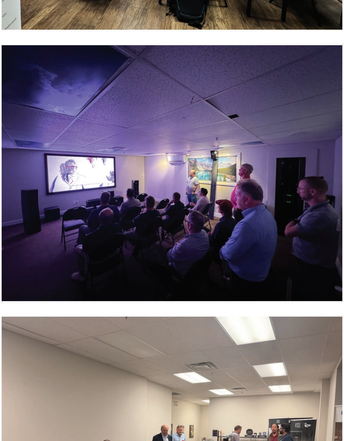
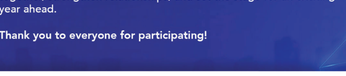
EVOLUTION

Evolution was thrilled to welcome our reps from across Canada, along with suppliers from around the world, to our 2026 Rep Conference.

The event showcased our full lineup of existing brands, while also introducing three exciting new additions to our assortment: AWOL Vision, TruAudio, and VSSL.

Our goal for the conference was to equip our reps with the knowledge, resources, and tools they need to confidently bring these brands and solutions to the Canadian market.

It was a fantastic opportunity to bring our team and partners together, strengthen relationships, and set the stage for an exciting year ahead.




Thank you to everyone for participating!
